Listening to Our Students...

“Being young and coming from a family that has had very little in terms of money, I look at the world with open eyes. I have learned to be accepting of others because not everyone has the same resources readily available to them.

Coming to Sac State has exposed me to many experiences that have helped me feel more accepted. There is such a variety of students here that I feel I have much in common with my newfound friends.”

—I am a Mexican-American woman from a low income household; I am also the first in my family to attend college. I am nineteen years old.

“It is really great knowing that there are resources for me related to each demographic. The women’s resource and pride centers are awesome. The SARC as an athlete is immensely important.”

—Hispanic/Female/LGBT/Athlete/21

“I have zero challenges here at Sacramento State other than trying to get into all of the classes I need.

I like the local feel and community of Sacramento State and the greater Sacramento area. The campus is beautiful, despite there being too many students currently enrolled.”

—a 4th year, 21 y.o., White, male, Awesome

“Sometimes I feel as if I do not fit in here because of the background I come from. My family is from what would be considered the ‘ghetto’ and that is the background and life I have come to know. However, I reassure myself that I have worked just as hard....

I like how CSUS has pushed me to think for myself and develop my own thoughts and outlook on situation and causes rather than just merely learn about them.”

—I am from a family of mixed backgrounds. My mother is Portuguese, Indian, Dutch, and Irish, and my Father is African American. I am 19 years old, and I am the third of four children. My mother passed away when I was 15 and I had to grow up....

“If I did not manage my time wisely being a student at CSUS things will not go smoothly for me and my future. Balancing school, with work, and family is tough. If I did not plan things out the way I currently do, I would be a hot mess....”

—a Hispanic, 18 years old, 1st year male. I come from a low income family being the last of my siblings to attend college. I have worked with my father since I was 8 and currently hold 2 part-time jobs aside from being a full-time college student with 17 units

“I am a student who communicates with basically everyone I come into contact with and treat everyone equally. When I keep an open mind and speak to others with respect they seem to do the same.”

—23 year old female, lesbian, hispanic (Veterans Success Center)

“Can be challenging connecting with classmates. CSU makes it difficult to graduate for my demographic.

Professors in my major make education enjoyable”

—Male, Mexican-Native American, Older, Re-Entry Student, Parent

“The main experience I would compare it to is freeing oneself from jail. Since I was born in a small town, diversity was always looked down for being different. I was always told to act a certain way, attached to a ball and chain through my childhood through adolescence. Upon enrolling & attending I was metaphorically given a key to be broken from those chains of oppression. I was finally able to feel the warmth of progressive thinking, meeting individuals who did not shun new ideas, but encouraged that gave me a breath of fresh air.

(I like) how encouraging some people are. I love to see people smile & welcoming they are to new experiences, & new people. The change from my personality has greatly helped me in a long way! This has helped me the most! This is what I have taken most from my experience!”

—Hispanic, Male, 19 years of age, new to college

“I feel comfortable here. I don’t feel like my sex or race limits me in my studies and I haven’t had any issues adjusting to the environment here.”

—New Transfer Student + Female/Mexican-American

“I love the environment at Sac State for the most part. I find it challenging to connect because I don’t fit in well, but I find my fellow students to be patient with my different life experience and viewpoint. I have some trouble because my faith is often mocked. There is a great deal of prejudice.”

—52 year old, Mixed Race Family, Lesbian, Veteran, Christian

“Being a returning transfer is much easier after time than being new. It was hard at first when I was new but its still hard now. Overall school is hard.

Making friends is hard. A lot of the staff aren’t friendly/hard to work with.... Switching my major made it easier to cope with being a transfer student.

(I like) teachers that care and are passionate”

—white, female, 24, lesbian, ADD, depression, anxiety, OCD, returning

“I am very aware of my education in that I am critical of my classes and make sure I get the most out of every dollar I spend. I feel the responsibility of being a white, suburban male to use my education to better society from the inside out.”

—24, local transfer, also working, male, in his 7th year of college

“It can be difficult at times because I’m in a different situation than most students being young, black, & married. Not all teachers can relate to cultural situations because they have no recollection of certain events.”

—Young, Black, Mom, Married

“As a female, I am always told that I have to watch out and to always be on high alert of my surroundings. As a white individual, I am told to sit down and ‘shut up’ because I don’t have a right to share my thoughts on things because ‘I just don’t understand.’”

—23 years old, white, Female

“The age to me feels like we are pressured to graduate very soon. Also means that we should have our life together and have some sort of path for life. Being Asian, we are seen as the smart ones. The ones that have everything figured out already. We are pressured to do well because of our ethnicity.”

—21, Chinese, Male

“I am definitely a minority here on campus. It seems there are many programs and clubs for everyone but my demographic. Lots of programs for women, and every kind of race. Being white and older it is hard to identify with anything on campus.”

—I am a white male in his 30’s, a minority

“being a female I tend to join groups of other female, so that may be gender biased? Being white I may be more privileged not having to face things my fellow classmates have.”

—22, white, female

“From the view of a transfer student, it is a beautiful campus. Enjoy how many places there is to study or use a computer. From the view of a full time worker, I hate that some classes do not have many sections that can fit my schedule...I do like night classes that meet up once a week. I love that there is a print allowance. From a Hispanic point of view it is a bit scary to see very few hispanics in my classes.

I like the fact that everyone is super friendly no matter any race or gender. People are willing to help if they have the time.”

—Hispanic, male, transfer student that works full time

“Age: Entering college at 17, everything is so different in comparison to high school. So much is expected of you to fulfill alone.

Latina: Being part of a minority I’m expected to downplay my culture in order to fit in. People think that I’m ‘exotic’ or ‘interesting’ when they talk about me. The only thing they focus on is how I got to college, when it’s expected of me to become pregnant and drop out.

First-Year: In my family (& extended) I am the only one who has graduated & make it into a 4 yr university. So many things are expected of me because I have made it this far. I can’t give up because there’s so many people in my family relying on me to succeed.

I want to be able to succeed in school & make my family proud. I don’t have a social life, I don’t have friends & my whole week consists of studying & still failing half of my exams.”

—Latina / 19 / First generation college student

“I am half Indian and half white. I come from two different cultures. I am currently 21 years old. Some of challenges I face are hemoplegic migraines/blood clotting disorder and anxiety.

I really like the welcoming for transfer students. I personally transferred from community college. During orientation I learned a lot about campus as well everyone was very inviting and welcoming.

I like that school is very diverse. There is a lot of different cultures that are on campus. The campus is very good at portraying/accepting different cultures. I think staff is greater here all teachers are very knowledgeable and are great working with students.”

—21 years old half Indian/white

“Based on my race I do not feel out of place. Based on my age I feel a lot older than most students. In some cases I feel I do not fit in.

I have had experiences with social gatherings and judgments people have made about me.

I do not like the process for transfer students who need to graduate.”

—African/American 24 years old

“First generation college, Mexican (maybe), (and my major) are the factors that I think have had an effect on my experience and perspective. 1st generation has given me a lot of insecurities going into college and it made me ignorant of all the opportunities that I could have had. (My) major might have had fundamental effect, but I think I mention it b/c its defined me as a person and is very time-consuming and difficult. The Mexican part has kept me aware of racism/sexism that is institutionalized and in the minds of my fellow (classmates in my major), especially....

There are some professors who are awesome and some administrators who are amazing.”

—Straight, Male, Hispanic, 1st gen. College

“I don’t necessarily see the Mexican as anything. As a vet I feel like I know some stuff. Especially as a female I think people never see me in that manner.

As an ‘older’ student I want to tell younger students to stop wasting their time & take school seriously.”

—Mexican Female Vet

“As a male student I definitely notice more female students than male. As an African – American student I only wish there were more students of my ethnicity on campus. I can sometimes notice the age difference between myself and some classmates.... There are students from all walks of life: ethnicities, ages, cultures, religions”

—Male, African-American, 27, Transfer

“Here at Sac State it’s never been a barrier of mine being hispanic, female, etc. campus is very welcoming, and encouraging.

As a female student, it is at times worry some walking to my car at night.... I have to be careful in parking lots, specifically over the main campus.

Sac State is a great commuter school. I live and work about 45 min away and it’s a great option for get in and get out on the Road. Classes are varied and offer good selection.”

—Hispanic Returning to school Female 27

“It’s different because the school is really dominated by white people. I had to deal with Asian stereotypes and racial slurs. As a male, I felt uncomfortable about feminist culture. They label men too much.”

—Filipino/male/20

“Sometimes I feel too old to be here and also inferior because I don’t meet the average expectations from an American female.”

—a 23 year old Latin American female

“I am a female, Hispanic, first generation student who feels that I am going on the right path to a brighter future by attending CSU. Although I had many paths to take I chose this path because I want to discover who I was, my strengths, and capabilities of not only attending a CSU but also attending a CSU that isn’t close to home.

In the beginning I felt like it was hard to concentrate on my studies but after I stopped and began to remember why I decided to take this path it motivated me to keep striving no matter the circumstances.

I felt like belonging in a group is what helped me get through my first year especially when you don’t know anyone and don’t want to feel down because you feel like you are alone.”

—No student specifics given, other than what is stated above

“I am a 22 year old Hispanic man. I don’t consider myself white but I’m not dark skinned. I am a full-time student. I work full-time to pay for my studies. I am a son to a single mother who worked hard to make sure I at least had a roof over my head. She has pushed me to get as far as I can in life. She now has cancer and lives in San Jose, so I drive two days a week to Sacramento to take classes while taking care of her through these tough times. I am Mexican and lucky I have not run into much prejudice. This does not mean I have not seen any. I got a friend who is gay and he struggles but I try to help him as well.

I have found both students and staff to be friendly and helpful. I have not run into some people who I smile or say hi to who does not respond back. My race/ethnicity have not brought me any problems thus far. I believe my age makes me fit perfectly with the majority of the people here.

The library always seems to be a great place to study, but there are many places to study. I cannot study as peaceful as I do here. On a nice sunny day, I like to sit in the benches under the trees and do my work while listening to music. I do not get bugged much. It helps me relax and distracts me from my problems back home.”

—Mexican American 22 y.o. male

“It is hard to relate and interact with other students. Priority’s and dedication to class material is often completely different. Many of the students come from a very privileged background. Their understanding of what challenges their peers face is often nonexistent.

Parking is bad, the kids don’t know how to park. I suggest a parking test as part of the enrollment process.

The veteran community has many organizations that help. I have enjoyed connecting with the veteran community who have the same concerns and problems.

As a transfer student, I had no priority registration. Being that I had taken all my GE classes and can only take VA approved courses, I almost didn’t get enough class to get full benefits. Also, my schedule is all over the place which makes work a hard thing to schedule. This will change next semester, but it is hard for a new veteran to get what they need.”

—White, male, veteran, 35, first in family in college

“It’s a bit more challenging being the first in my family to attend college. At first it was hard seeing other more seasoned college students take the classes they need, study a specific way, and work the college system. As I got older and took more classes, reached out to campus organizations it got easier, but I felt I had to LEARN it on my own.

Being Laotian and having a collective culture, my family always taught selflessness, love, acceptance, and open minded. Coming specifically to Sac State and its diverse cultures helped me understand other people and they’re backgrounds. It was tough at first because my beliefs and values were challenged, but in the end I became a more understanding person.”

—21 years old, Laotian, first generational.

“I don’t feel connected on campus. There is nothing here for me. Essentially, I feel like a Ghost. No one can see me, and if they did they’d probably freak out.

As a black man of trans experience I’d like to share how equality AND justice are both important. I’ve learned from my transition from female to male that sexism is real. I’ve learned that the fear of ‘The Black Man’ is real. It is frustrating that many others cannot see the discrimination that Black folks, women, and transgender folks face on a daily basis. And to be two of those things? That’s already a failure when it shouldn’t be.

Great instructors so far, but that’s about it.

School is lacking in the spirit department. It doesn’t feel like an experience at all and it is frustrating to be in a place where it feels like no one cares.”

—Black Man of Transgender Experience

“It is interesting because I’m a young woman, Hispanic, and I am studying mathematics. I feel that 50% of the people I meet doubt me and the other are very skeptical.

Sometimes people don’t take me seriously or they don’t want to hear what I have to say because I’m young and a female.

I love the beautiful campus and the marching band. I have found a new family here.”

—18, female, Hispanic, math major.

“I feel like I should be closer to graduating than I am at my current age. But, the longer I stay in school, the more I seek education. The problem is that being a middle class white male, I receive no Financial Aid, & I can’t afford to take more classes to graduate sooner/get more education.”

—22 yr. old—White Male—PR Major

“My age: I am now understanding why people should finish college by 21 or 22.... I am just getting too old and tired—less energy.

Armenian-American: No language barrier for me however tradition & culture doesn’t encourage us to continue education after High School so it’s more challenging communicating @ home then it is on campus.

Woman: Other than the need to help women reach their full potential, first I must set an example. So here I am.

I love this campus and all that it has to offer.”

—28-Year-Old Armenian-American Woman transfer

Listening to Our Students

In the year-long-plus unfolding of this work, *Listening to Students*, a specific type of student group was shared each week. Those sections included:

- Students Who Are: New, Transfer, and Reentry Students
- Students at Different Class Levels: Freshmen, Sophomores, Juniors, and Seniors
- Students of Different Ages: Teens, Twenties, Thirties, Forties, and Fifties
- Students with Physical Disabilities: Health, Vision, Hearing, Speech, and Mobility
- Students with Learning Challenges: Learning Disabilities and ADHD
- Students with Psychological Disabilities: Depression, Anxiety, Post-Traumatic Stress Disorder, Obsessive-Compulsive Disorder, Bipolar Disorder, Schizophrenia, and More
- Students of Different Cultures: Students from Around the World & Multilingual Students
- Minority Underrepresented Students: African American, Latino, Native American, and Asian American and Pacific Islander
- Students Who Are: Athletes, Parents, Veterans, LGBTIQQ, First Generation College Students, Students of Varying Financial Situations and Means, Students with Personal Struggles, Dreamer Students, and More

In the coming weeks, the sections will be different than this usual format, as the project closes out and ends the last weeks of the semester with the students' perspectives on their education.

This section, therefore, will be devoted to making the following point: The nature of this series of work is such that the categorization of student groups in each week's subject of discussion may obscure the simple but significant fact of intersectionality.

It is a term with different meanings and uses, but distilled to its fundamental core, intersectionality asks that we look at the multidimensional, interacting components of a person's identity, rather than any one aspect exclusively. Originally, the term referred to the intersection of race, sex, and class, and, over the years, has been applied to many other demographic differences, such as age, sexual orientation, gender identity, indigeneity, immigration status, disabilities, and more. When applied to academia, intersectionality could mean further differences in student point of entry into postsecondary education, grade level, year in college, degree of college preparedness, area of study, on-campus resident/commuter status, and so forth. And when used in the spirit of its central principles, intersectionality would tell us to recognize students for all of whom they are—in their multiple, intersecting identities—in order to most fully and accurately understand and support each in their journey on campus and in life.

We might, for example, have sitting in our classrooms or across from our desk a Latino female LGBTIQQ veteran, who is returning to school and a parent, multilingual, non-traditional college age, first generation college student, who has one or more disabilities. That student may be: native-born or an immigrant, may identify in different ways in terms of gender and sexual orientation, may have served in any of the different branches of the military, may have been out of school a few years or a few decades before returning, may be a single parent or a married parent with one to ten kids of different ages, may speak any number of hundreds of languages possible and speak English with varying degrees of proficiency, may be 25 or 55 in age, and have any type of disability physical, psychological, or learning.

Intersectionality tells us to acknowledge and honor students in the fullness of all they are.

What We Can Do

See Students For All They Are

Human beings are hard-wired to see someone whom they don't know or don't know well in terms of the most recognizable categories, and we often stop there. In academia, for example, we may see the student primarily through discernable identifiers such as race or accents, or through what we learn about identities via such things as student accommodation forms for disabilities, grade checks for student athletes, or self-disclosure of LGBT or veteran status.

Taking care to see more, see beyond, the immediately known categories means that the student feels acknowledged beyond any one demographic, and in knowing the student more fully you will be able to better communicate with and understand the person sitting in front of you in class or across an office desk.

Appreciate Students For All They Are

Sometimes the metaphor used for intersectionality is that of a multi-faceted jewel, and like a gem created by nature, each is unique, ... each student a treasure to this world, and to this campus. The exact nexus of their many differences makes each student unique in knowledge, skill, experience, goals, dreams, insights, ideas, capacities, and so much more. That's why you can give the same lecture for ten years, and have one student offer a whole new take on things or ask the best question no one had before, including yourself, and why one student can change the climate of a class, the learning of a class discussion, or the trajectory of a student project group or campus organization.

Philosopher Martin Buber posited that most of the time we interact with people in terms of our practical roles and needs when going about life, so essential to day-to-day functioning, but not fully appreciating others beyond this. Yet we may also enter another way of being where we encounter and relate with others in their utmost individuality and totality, where we view and value them as truly unique and engage in open, genuine dialogue together. This is the beautiful space he called "I-Thou," where people feel safe and free to be their most authentic selves, and know they are special and irreplaceable for all they are.

Assist Students in Their Journey to Becoming All of Whom They Are

College is such a transformative time, characterized by immense learning about self and society, and growth in awareness, knowledge, beliefs, values, and voice. For most students, it is a time when the potential skills and abilities awaiting within them start to bud and bloom, where potentialities become actualities, as gifts and talents are made known to the world.

We can help students to better see and strengthen their talents and skills through compliments, encouragement, and appreciation. As faculty and staff, we may not fully realize just how much our words may matter to a student in crystallizing awareness, use, and development of their gifts. Seeing and appreciating students for all they are also allows us to better address any needs they may have or suggest any opportunities we feel they may benefit from in order to assist them in achieving their college education and achieving their fullest potential. In the pages to follow, you will find a list of campus resources for students.

For Students New to the Campus

For students needing to get situated and find your way in academic life:

Admissions and Outreach (A & O)—

Oversees the admission application process for students. The website provides the steps for before and after students have applied for first time freshmen, transfer students, and more.

Location: Lassen Hall 1102

Phone: (916) 278-1000, #1

[A & O Application Website](https://www.csus.edu/apply/admissions/application-process/) <https://www.csus.edu/apply/admissions/application-process/>

New Student Orientation (NSO) Office—

Provides New Student Orientation for new and transfer students, parents and guests, and more.

Location: Lassen Hall 1010

Phone: (916) 278-7841

[NSO Website](https://www.csus.edu/apply/student-orientation/) <https://www.csus.edu/apply/student-orientation/>

Campus Tours—

Gives tours around the campus led by a student guide with information about the many services, activities, programs, and educational opportunities Sacramento State has to offer. Further information may be found on the website, and a Self-Guided Tour Booklet, as well.

Location: Lassen Hall 1102 (A & O Office)

Phone: (916) 278-4592

[Campus Tours Website](https://www.csus.edu/experience/visit/campus-tours/) <https://www.csus.edu/experience/visit/campus-tours/>

First Year Experience (FYE) Program—

Offers all freshmen the opportunity to take a First Year Seminar (a three unit general education academic course where students explore the requirements and responsibilities of being a university educated person) or to join a University Learning Community (courses that satisfy GE or academic major requirements that students take with the same group of students and faculty who link class content together in themed clusters). FYE also has peer mentoring for personal and academic advising, and the FYE Space for students to study and find support.

Location of FYE Space: Library 3520

Phone: (916) 278-4973

[FYE Website](https://www.csus.edu/undergraduate-studies/first-year-experience/) <https://www.csus.edu/undergraduate-studies/first-year-experience/>

Peer-Led Advising for College Experiences (PLACE)—

Has student advisors who are familiar with campus life and resources and can refer their fellow students to appropriate departments and college services, help navigate college life and manage stress, and enjoy their educational experience and do well in their classes. PLACE is a good place to go if a student is new to campus and wants to feel more engaged in college life or feels isolated or knows very few students. Students may go online, call, or come by for further information, availability hours, and appointments.

Location: Lassen Hall 2200 (Peer & Academic Resource Ctr.) Phone: (916) 278-6010

Location of Urgent Care Clinic: The WELL, First Floor

[Counseling Services Website](https://www.csus.edu/student-life/health-counseling/counseling/) <https://www.csus.edu/student-life/health-counseling/counseling/>

Students in an immediate crisis should contact 911 or the Suicide Hotline at 1-800-273-TALK (8255).

Students with urgent concerns who would like to see someone right away may walk in to receive counseling at the Urgent Care Clinic (WELL, First Floor) any time during its hours of operation or call to speak with the After Hours Nurse at: (916) 278-6461.

Students who want to receive counseling or explore if counseling is right for them may schedule an appointment by calling or coming in Counseling Services, or going online through the Patient Portal. This typically begins with a consultation appointment, where the student can talk about their concerns and receive support and feedback. Many students find that they feel better and their needs are met in just one session. Students who want to continue counseling may choose individual counseling in follow-up single session appointments (to meet their needs in the moment) or short-term individual therapy (more than one session with the same mental health clinician). Students may also join group therapy (with five to ten other students): There is a diversity of groups (including those for men, women, LGBT students, international students, and undergraduate students) and topics (including groups for anxiety, anger management, mindfulness and meditation, creating good habits, coping with loss, improving relationships, and surviving family dysfunction).
